STORM IN GEORGIA.

Great Loss of Life and Property.

SWEEP ALONG THE COAST.

Telegraph and Telephone Wires Are Down and the Full Extent of the Damage Can Not Be Learned—Savannah Reports the Greatest Storm in Memory of Those Living There.

NEW ORLEANS, Sept. 30.—A special to The Times-Democrat from Atlanta says: A disastrous hurricane swept over Brunswick and along the Georgia coast yesterday morning. Meager reports have been received from the storm center which indicate that the hurricane was one of terrific force and that great damage and probable loss of life resulted. All the wires along the coast are down and communication has not been restored to Brunswick, Savannah or Charleston.

The wires are down for a distance of 40 or 50 miles this side of Brunswick, and no information has been received from that place except by train, which left there while the storm was still raging. The train was delayed in Brunswick two hours, the engine being unable to make headway against the wind, which was blowing at a high velocity. Wind and water worked destruction, and as the train left Brunswick the streets were filled with debris, wires, telephone and telegraph poles and parts of buildings blown down and carried away. People were injured by flying objects and one lady was killed at Everett, a small station a few miles from Brunswick. The railroad tracks were obstructed by trees and poles and the only train which came through from Brunswick was preceded by a wrecking train and crew for a distance of 20 miles.

Mr. H. N. Merrill of the Atlanta Telephone company reached Atlanta late last night from Brunswick and states that the city of Brunswick is badly damaged and that three big vessels were sunk in the Brunswick harbor. The latter were blown away from their moorings. The waves of the sea and the wind destroyed much of Brunswick's shipping interests.

Mr. Merrill says that the famous old gunboat, the Monitor, was blown away from her pier and that she was floating helplessly in the harbor in danger of going to the bottom. A part of the Oglethorpe hotel, the leading hostelry of Brunswick, was blown away, and other big buildings were totally or partially wrecked. Many houses in the suburbs were blown away and the water rushed through the streets in torrents, carrying property, household furniture and valuables toward the harbor.

Four persons are known to have been killed outright in Brunswick, as follows:

William Daniels.

Abel Davis.

John Jefferson and baby, all colored. Many persons were dangerously injured.

A careful estimate places the damage at \$500,000.

The storm in Savannah was equally disastrous and several persons were killed in that city.

REPORTS FROM SAVANNAH.

The Worst Storm in the Memory of Those Living There.

NEW ORLEANS, Sept. 30.—A special to The Times-Democrat from Savannah says:

A worse storm than that of August, 1893, if not the worst in the memory of those living here, was at its height at 12:30 yesterday. Business in the city was suspended for over an hour, the storm being furious for that length of time. No person dared appear on the streets. The streetcars halted, elevators stopped running, electric currents were shut off, through fear or because of breakage; windows and shades were blown in everywhere, wires were hurled down, trees were razed, fences blown down, houses unroofed, portions of big buildings wrecked, vessels turned over in the river, church steeples toppled and the streets were literally strewn with debris of every imaginable kind.

People lived in dread for an hour in Savannah yesterday. The stouter buildings in the city trembled.

There is the greatest apprehension for vessels out and for small craft that are known to have been in the blow. Relatives of persons known to be at sea are frantic in their endeavors to receive news from them.

Early in the storm there were reports that there had been loss of life in the

city. The money loss, it is estimated, will reach \$600,000 to \$800,000.

The damage to shipping was very great, several vessels known to have been sunk.

Hundreds of dwellings are either totally demolished or damaged and many of the principal retail stores of the city are sufferers.

There has not been such a general loss from a storm in this city in years. The loss of life, it is feared, will be great, already 10 deaths are reported.

There are numerous islands about the city inhabited by negroes and the loss of life, it is believed, will be heavy on them.

Within two hours and a half after the storm began the sun was shining and the rain had ceased.

AFFAIRS AT LEADVILLE.

The Miners' Union Will Soon Determine Whether It Is Peace or War.

LEADVILLE, Colo., Sept. 30.—From present indications a fierce struggle is in progress in the miners' union between the leaders, who wish to continue the strike for uniform wages of \$3 a day for all the men in all the mines, and the conservative men, who think the time has arrived when overtures for peace should be made to the mine operators.

It is believed that in the general meeting called for this evening the union will resolve to treat for peace or make provisions for making more aggressive war.

The mine operators remain firm in their determination not to concede the demand of the union and not to give employment under conditions to the officers of the union and the leaders of the strike.

J. M. Amburn, president of the miners' union, has not been seen on the streets here since the riot, which occurred here over a week ago. It is reported that he was slightly wounded in the fight at the Emmet mine, where he had been attracted by the shooting and that he has since been hiding in this city under a doctor's care.

STRIKE IN CANADA.

Telegraphers Along the Canadian Pacific All Go Out.

VANCOUVER, B. C., Sept. 30.—The strike of the order of Railway Telegraphers on the Canadian Pacific which occurred at midnight took the officials on the Pacific division entirely by surprise, the first intimation received being the stoppage of all trains. From here to North Bend every operator except one at Port Moody went out.

The assistant superintendent has, however, undertaken the duties of dispatcher, and succeeded in getting the Atlantic express out shortly after schedule time and expects to be able to make arrangements for regular running trains in a few days. The officials here state they know no grievances which train dispatchers have.

WESTERN DIVISION TIED UP.

WINNIPEG, Sept. 30.—The Western division of the Canadian Pacific is completely tied up except the main line mail trains. The company tried to get out four freight trains this morning, but could not. All operators at local points are out.

SHOT RIGHT AND LEFT.

A Texas Man Attempts to Clear Out an Entire Family.

HOUSTON, Sept. 30.—Last night James Isaac Newton walked into the home of his father-in-law, Thomas L. Lyons, with a pistol in his hand and commenced shooting. Lyons was shot in the head, receiving a flesh wound. Mrs. Thomas L. Lyons, his wife, aged 60 years, was shot in the right cheek, through the left arm and through the left hand, and Thomas W. Lyons, a son, was shot through the left side of the neck. The wounds of the son and old lady will result fatally.

Newton married a daughter of Thomas L. Lyons. In July last Mrs. Newton left her husband on account of bad treatment. He kidnaped their daughter, 9 years of age, and when his wife refused to give him clothes for the child he became enraged and went to the house, intending to clear out the family. He shot three times at his own son, 13 years of age, but none of the shots took effect. Mrs. Newton was not present.

Newton was disarmed by young Lyons after the latter had been shot, and held until officers arrived.

MOB DISPERSED AND ALL IS QUIET.

AMITE CITY, La., Sept. 30.—The committee appointed by the mob at Independence came here and had a talk with the parish officials. The officials stated that Johnson, the murderer of the Cottonton family, would be tried at an early day at Amite City. This statement apparently satisfied the mob leaders and the armed citizens on horseback were ordered to disperse and the militia has returned to their homes.

STEAMBOAT SUNK BUT CREW SAVED.

AMHERSTBURG, Ont., Sept. 30.—The small steamer Harry Cottrell, bound up with coal for Marine City, founded off Bur Point yesterday and sank in 20 feet of water. The crew took to their yawl and were taken on board of the Gettysburg, bound down, and later on were put aboard of the steamer Kearny, upbound, and brought here.

Fractured His Arm.

HAGERSTOWN, Ind., Sept. 30.—While practicing the running high jumps in the field day exercises of the high school, Frank Ault, son of Superintendent of Schools Lee Ault, suffered a compound fracture of the arm and other serious injuries.

Early in the storm there were reports that there had been loss of life in the

WAITING FOR RELIEF

Armenians in Marseilles in Destitute Circumstances.

SEEKING A LAND OF FREEDOM.

They Have Escaped the Turkish Butcher-les, but Are Homeless, Penniless and Friendless—No One Seems to Have Come to Their Aid—They Are Not Barred Out of the United States.

MARSEILLES, Sept. 30.—There exists a condition of affairs in this city at present which seems to be a disgrace to Europe and to the Armenian associations generally throughout the world. Subsisting upon government, municipal or private charity here are 500 unfortunate Armenians, men, women and children, young and old, healthy and sick, who have succeeded in escaping from the bloody massacres at Constantinople and who were one and all buoyed up by the hope, on landing here, of being able eventually to reach the land of freedom, the United States.

But weeks have already elapsed, and nothing definite appears to have been done for their relief, much less toward finding them homes, by any one of the many associations for the relief of suffering Armenians which have been organized in England or America. These unfortunate, however, seem to be the very class to which the hand of charity should be first extended. They are homeless, nearly all are penniless, many are enduring the pangs of hunger, and yet nobody seems willing to step in and guide this band of refugees to some place where they can begin life anew under more promising circumstances.

Large amounts of money have been raised in the last for the relief of destitute Armenians in Armenia, but the situation of the latter is not a whit worse than that of the half-starving people here, if as bad. The Armenians in Armenia certainly had their co-religionists and fellow-countrymen to fall back upon, but the poor people here seem to have no friends in the wide world, yet they are as honest and industrious a class as you can find on the shores of the Mediterranean.

WELCOME TO OUR LAND.

The Armenian Refugees Are Not Barred Out of the United States.

NEW YORK, Sept. 30.—Officials of the Armenian societies in this city do not believe that the United States will be any less hospitable in receiving immigrating Armenians than the countries of Europe which received them with open arms. J. J. Rooney, secretary of the Phil Armenian's association of New York, and chairman of the executive committee, said:

"I don't believe there will be any trouble about the landing of the Armenian refugees in this country on account of the immigration laws. They are by no means paupers. As a matter of fact the Armenians are a very industrious race and I doubt greatly if the Marseilles refugees should decide to come here I am quite sure that they would not be barred out for any reason. A large number of Armenian refugees have come here in the last year or two chiefly from the interior districts and these had no difficulty in landing. The Armenians in this country, of whom there are about 15,000, many of whom being in the west, make it a point to help their unfortunate countrymen."

One Thousand Clubbed to Death.

LONDON, Sept. 30.—A dispatch to The Post from Constantinople says that the Turkish marines aided the rabble to loot the Armenian houses in Galata on Sunday.

The Daily News' Constantinople correspondent says that patrols are parading the city in unusual numbers and that the police have been notified that some outbreak will soon occur.

A Berlin dispatch to The Daily News quotes a Constantinople dispatch to the Frankfurter Zeitung, which says that the governor of Kharput telegraphs that a thousand Armenians were clubbed to death at Nikde on Sunday. This dispatch also says that the sultan has given £150,000 to indemnify the foreigners injured in the massacres.

The Old, Old Story.

PARIS, Sept. 30.—A semi-official note just issued says that the embassies at Constantinople are unanimous in regarding the representations made to the sultan by M. Cunibon, the French ambassador, as having exercised a most effective influence upon the Turkish government and as being destined shortly to deprive the eastern question of much of its acuteness.

Crisis Approaching.

PARIS, Sept. 30.—The Figaro asserts that Sir Philip Currie, British ambassador to Turkey, is about to withdraw from Constantinople.

CHARLESTON, W. Va., Sept. 30.—Rewards of \$750 have prompted a general search for Joe Thompson, who killed Paymaster Wilson at Sewell. Bloodhounds are still after him. If he is caught a lynching will follow.

Ran Into an Open Switch.

SELDALIA, Mo., Sept. 30.—A Missouri and Texas train ran into an open switch and was wrecked at Wilson, 85 miles east of here. Fireman William Blake was crushed to death under the locomotive.

WAS POWERS MURDERED? His Wife and His Relatives Are of That Opinion.

OWENSBORO, Ky., Sept. 30.—The wife and children of Ab Powers, who disappeared mysteriously in Chicago last week, are still in this city, but not a word has come to them of the missing man. Colonel J. D. Powers, the father of the man who has disappeared, has returned from Chicago. He now thinks that his son has been murdered.

The intimation that Powers was murdered by the Spaniards because of his work in the cause of Cuban liberty is discredited here, and the general belief is that if he is dead he was murdered for his money. He had a large sum with him in Chicago. He is said to have secured \$10,000 insurance upon his life recently.

The family's belief that Powers was murdered is based upon the finding of a torn necktie which had been worn by the missing man, an overturned bicycle in the room vacated by him, and an unfinished letter on the table, all pointing to a sudden attack and a sharp struggle.

SENSATION IN A DEPOT.

A Travelling Man Fires His Revolver in the Midst of the Waiting Passengers.

KANSAS CITY, Sept. 30.—Lafayette Meade, traveling from New York to Cripple Creek, created a panic at the Union depot in this city by firing off a revolver in the midst of several hundred waiting passengers. Miraculously enough the bullet was buried in the wall and no one was injured.

Meade, who was accompanied by his wife and two dogs, had been requested by the depot master to convey the dogs to the baggage room. This he flatly refused to do, and when the depot master a moment later made an effort to carry off the pets, Meade drew his revolver and fired. Dozens of people had crowded around the Meade while the scene was being enacted, and when the shot was fired the greatest consternation prevailed. Meade was arrested.

FRANK LYON MISSING.

The Supreme Secretary of the Y. M. I. Has Disappeared Mysteriously.

LOUISVILLE, Sept. 30.—Frank Lyon, supreme secretary of the Y. M. I., has not been seen here for three weeks, and his friends are uneasy. His wife, who lives at 522 Twenty-fifth street, came to his office in the Union National bank building, making inquiries for him, but the other tenants in the building could tell her nothing.

Some time ago Lyon started a paper known as The Review and Record, the local organ of the Y. M. I. He went heavily into debt to secure the office.

There is no doubt that his accounts with the Y. M. I. are entirely correct.

Who Will Build the New Torpedo Boats.

WASHINGTON, Sept. 30.—The Bath iron works of Maine will build two of the 30-knot torpedo boats and the Union iron works of San Francisco the remaining one; Wolff & Zwicker of Portland, Or., two 22 1/2 knot boats, and of the little 20-knot boats Herreshoff will have three. Columbian iron works of Baltimore and Hillman Brothers of Philadelphia one. This is the decision finally reached by Chief Constructor Highborn and Engineer-in-chief Melville, to whom the numerous and complicated bids, opened on Sept. 11, were referred.

No Revolution in Honduras.

NEW YORK, Sept. 30.—The Herald this morning publishes the following telegram from the president of Honduras, dated Tegucigalpa, Honduras, Sept. 28: Recent reports circulated to the effect that a revolution has occurred in Honduras are absolutely false. The country is tranquil. The diet of the greater republic of Central America was installed in San Salvador on the 15th inst. This event will insure for the future continued peace and prosperity.

Desperate Criminals Escape.

SACRAMENTO, Sept. 30.—Three of the most desperate criminals confined in the county jail have escaped by means of a tunnel dug under the walls connecting the jail yard with the side yard of the courthouse. The escaping parties were Frank McCarty, William Harrison and Ed Credman, three of the most notorious thieves and crooks on the Pacific coast. McCarty was recaptured, but the other two escaped.

Brought Back For Trial.

PERRY, O. T., Sept. 30.—James McGee of southern Kansas, charged with killing and robbing Robert Maudling, near Gray Horse, three months ago, has been brought here, being arrested at Pawhuska, Osage nation. Maudling was a rich bachelor, 75 years old. One night he was taken from his home and murdered and \$10,000 in money is said to have been obtained by the murderer.

Battle of Three Days' Duration.

LONDON, Sept. 30.—The government has received a dispatch from Fort Salisbury stating that serious fighting lasting three days has taken place in Mosholand, near Mazoe. The British, the telegram says, were hemmed in by the natives for 10 hours. No details of the fighting are given, except that the statement that two British officers were wounded.

Natural Gas Explosion.

WINDFALL, Ind., Sept. 30.—Frank Coomer and wife and Miss Cora Mount were moving from one house to another and in attaching gas fixtures a large amount of natural gas was permitted to get into the house. Mr. Coomer struck a match, causing an explosion. All three were severely burned.

Leprosy in Montreal.

MONTRÉAL, Sept. 30.—Leprosy in its worst form exists in Montreal. Lee Tung, a Chinaman, who died of a mysterious illness, has been found to have been a victim of it. An inspection of all Chinese boarding and lodging houses and stores has been ordered.

WEDNESDAY, SEPTEMBER 20, 1896.

And what has become of the great and only Bourke Cochran? Has he evaporated?

KENTUCKY Republicans are now pleading with the Palmer-Buckner crowd to vote for McKinley. They are evidently becoming a little "jubilous."

BRYAN tells the people to study the questions at issue and vote their honest sentiments. Mark Hanna and other McKinleyites say to their employees: You can't understand these questions. Vote our sentiments.

"I believe, my friends, that the time has come when we must restore to the people the right to run the Government, and that we must restore the Government to the old policy whereby it guarantees equal rights to all and gives privileges to no one." —W. J. Bryan.

THE Danville Advocate is not supporting Bryan, but it is greatly impressed by the great crowds that greet him everywhere. Here's what it says on this point:

Mr. Bryan seems to be speaking to as large, if not larger, crowds in the East as he did in the South. The warmth of his reception and the size of his audiences in the South were declared to be an indication that he would receive the solid support of the Southern people. By the same course of reasoning we must conclude that New England is just as firm in its allegiance, notwithstanding Vermont and Maine have recently spoken to the contrary, and that Mr. Bryan will carry the country with plenty of votes in the electoral college to spare, and by an unprecedented majority of the popular vote.

A BAD THING.

"The gold standard makes it more profitable to hoard money than to invest it. It is a bad thing for any country to have a financial system which raises the value of a dollar and lowers the value of all property. That is what we have been having, and the people are so tired of the scarcity of money and the rise in the value of dollars that they cannot be terrified when they have undertaken to secure a larger amount of standard money by adding silver to gold as the money of this nation." —W. J. Bryan.

THE CHICAGO TICKET.

It is not strange that the heads of all the trusts in the country are opposed to the Chicago ticket, because the Chicago ticket is opposed to all the trusts of the country. It is not strange that the money changers are opposed to the Chicago ticket, because the Chicago ticket is opposed to the money changers' policy. It is not strange that the syndicates, which grow fat while the people grow lean, are opposed to the Chicago ticket, because the success of the Chicago ticket means those syndicates shall cease to fatten on the adversities of the people. —W. J. Bryan.

THE STANDARD OF THE MISER.

"When our opponents tell us that a dollar is a thing with which law has nothing to do we can reply to them that every dollar in existence is a creature of law. If you want more wheat you go out and raise wheat. If you want more of any kind of manufactured goods you produce them, but if the people want more money they cannot produce more money. A Government that will not allow an individual to bring a dollar into existence assumes the solemn duty of bringing enough into existence to perform that duty, enough of that money as it is called upon to perform. If by legislation you make money scarce then you make money dear, and if you make money dear you make money hard to get. You compel the man who needs money to produce more of the products of his toil in order to get it. You make money dear, and the men who own money can hold that money until it increases the purchasing power of a dollar, whereas if you have a stable currency then idle money does no good to anybody, and the owner of money will have to invest it and employ labor and develop enterprise before he can reap any profit out of that money. The gold standard is the standard of the miser." —W. J. Bryan.

REPUBLICANS

Who Will Vote For Bryan and Free Silver.

The List is a Large One and is Still Growing—A Few of the Many.

Paris Kentuckian: "Col. John A. Prall, now of Danville, but for eight years Senator of Bourbon district and afterwards Representative of Fayette, and Pension Agent at Lexington under Republican administration, is for Bryan and free silver."

Georgetown News-Democrat: "W. H. Bradshaw, a leading jeweler of Wooster, always a Republican, is out for Bryan and silver. 'I am one of hundreds and thousands of Republicans who will not vote for New York and European millionaires,' says he."

MARION, Ky., Sept. 26.—Colonel Henry H. Houston, of Paducah, addressed 3,000 people at a barbecue in this county today. He is one of the most prominent Republicans in Southern Kentucky. He came out strong for free silver and Bryan.

H. D. Rucker, a Republican, and for McKinley up to the St. Louis convention, has notified the McKinley club of Lockland, Hamilton County, O., that there being but one issue in this campaign (money) and the Republican party being wrong on that issue he desires no longer to be considered a member of the club. Mr. Rucker has been one of the Republican party's most enthusiastic speakers and club organizers in years gone. He makes his first speech for Bryan at Rome, Adams County, after which he goes on the stump for the National Democratic Committee in Ohio and Indiana.

WELLSTON, Ohio, Sept. 26.—Arthur James, of Coalton, Secretary of the Jackson County Republican Central Committee, has resigned, and declared his intention to support Bryan and Sewall. Immediately after James sent in his resignation to the committee, Norris Cameron, a leading coal operator of Coalton, declared his intention to support Bryan and Sewall. The object of the Republican rally at Jackson to day is to check the wave in favor of silver that has been carrying this county by storm. Only three heretofore Democrats joined the procession from here to Jackson to-day, while over 200 have left McKinley in this city and will support Bryan.

The Columbus (O.) Record says: "Hundreds of Republicans who are also for silver are coming over to Bryan in this city and county. According to ex-Republicans themselves there are not less than 1,500 in this county alone. In very many cases the converts are not allowed to come out openly, but they are for Bryan just the same."

The Columbus (O.) Call, 17th, says: "Hon. Henry C. Taylor has retired as Chairman of the Republican County Executive Committee. He knows a political cyclone when he sees it coming..... There are more members of the Bryan club in Painesville, than there were ever Democratic votes cast in Lake County. There are dozen other clubs besides..... A conservative estimate puts Bryan's gain in the Western Reserve, over the vote of last year, at 20,000, and it is more likely to be 25,000."

Hon. Clark A. Smith, ex-Judge of the Fifteenth Judicial district of Kansas, and one of the most prominent and influential Republicans of that district and State, has bolted McKinley and his gold platform and has taken the stump for Bryan and free silver.

Georgetown (O.) News-Democrat: "E. Lewis and his seven sons, of, Sharon township, Franklin County, who have always been staunch Republicans, and who are all voters, have turned to the silver side of the present conflict and have announced their intention of working for the rights of the people at every possible occasion, beside voting for them. They will come out definitely for Bryan and will be found in the ranks from now on, working together with their Democratic brethren."

Ohio exchange: "T. C. Remington, a lawyer of Kenton, and always a Republican of the Foraker type, with P. C. Reis, went to Ridgeway, in Hale Township, Hardin County, and organized a silver club of 190 members, the President of which, as well as the Secretary, have always been rock-ribbed Republicans in Hardin County."

"At Akron I spoke to 4,000 persons, and as many more could not gain admission to the hall. I polled the voters there, too, and found that 400 Republicans were for Bryan." —Mrs. Helen Gougar, in Enquirer.

JUDGE PHISTER.

Highly Complimented by One Who Heard Him at Germantown.

Saturday night, September 26th, under the auspices of the Germantown Free Silver Club, Judge Phister, a young lawyer of Maysville, delivered a political address to a full house of deeply interested citizens of Mason and Bracken counties. We say deeply interested citizens for the reason that the issues of this campaign touch not only the interests of the people of this section of country, but the patriotism, heart and hearthstone of every man, woman and child in this great republic. It is a campaign of the most vital and far-reaching interest to the millions of toiling millions and wealth producers of this country, for the perpetuation of their liberties and national rights. This campaign is to test the ability of this people to govern themselves according to the great principles of democracy and republicanism as laid down by our forefathers in their struggle against the usurpation and aggression of the ever invading English spirit.

May God forbid that partisans of this people should ever possess the wills of this free people to heedlessly, blindly, pell-mell support the alarming power of wealth that is undermining our free institutions and overthrowing the liberties of the toiling millions of honest citizens of this nation. The power of Eastern wealth threatens the destruction of this government, and every humble voter should weigh well the significance of this political campaign, lest he rivet closer the yoke of bondage already on his neck and perpetuate the curse to future posterity. There is no room here in this campaign to ask yourself if you are a Republican, Democrat or Populist, Prohibitionist or Socialist, but the question is, are you an American, and do you wish to free yourself from the insolence and galling chains of despotism that wealth is forever seeking to forge upon honest industry?

With fairness of speech, dignity, unanswerable argument and genuine courtesy to those of all political faiths Judge Phister held the audience, in reverence of his earnestness and power for nearly two hours. If we are a Judge of human nature and of the promising elements of human character that belt a man for future usefulness, we can say to the citizens of Maysville and Mason County, that in this rising young lawyer they have the promise that only God can bestow upon man to make him eloquent, true and useful to his fellowman. Respectfully,

J. ROBERT HUMLONG.

When any part of the body isn't doing the work that nature intends it to do, it puts the whole system out of tune—out of harmony. Sickness in one part of the body is likely to run in all parts of the body. When children stand a row of brick on end, they knock the whole row down by upsetting one brick. That is exactly what happens to the health when the bowels fail to perform their proper function. Constipation makes trouble all along the line—puts the liver out of order, is bad for the kidneys—bad for the stomach. It holds in the body poisonous matter and because it cannot go any place else, it gets into the blood. The blood carries it all over the system. That makes sluggishness, listlessness, bad breath and foul taste in the mouth, fills the stomach with gas and causes windy belching, stops digestion in the stomach, causes sour stomach, heartburn and headache. You can avoid all such trouble, for Dr. Pierce's Pleasant Pellets cure constipation and its attendant evils. Send 25 cents in one-cent stamps to Dr. R. V. Pierce, Buffalo, N. Y., for his "Medical Adviser." It is a book of 1008 pages, profusely illustrated.

The following is furnished by Glover & Durrett, of the Louisville Tobacco Warehouse:

Sales on our market for the week just closed amounted to 2,679 hds. with receipts for the same period 1,403 hds. Sales on our market since January 1st amounted to 132,459 hds. Sales of the crop of 1895 on our market to this date amount to 127,675 hds.

There have been a few hds. of fine burley sold on our market and the highest prices of the season have been realized, \$35 having been paid for two hds. and quite a number of hds. sold from \$16 to \$26. The color sorts of all grades continue to bring satisfactory prices. Good and medium red leaf when it is in sweet condition is doing fairly well, but the common nondescript sorts of off color and out of condition are lower than they have been for a number of years.

The following quotations fairly represent our market for burley tobacco (1895 crop):

Common color trash..... \$1.00 @ 1.50
Common color trash..... 2.00 @ 3.50
Common lugs, not color..... 3.50 @ 6.00
Common color lugs..... 4.00 @ 6.00
Common to good color lugs..... 5.00 @ 7.00
Common to good leaf..... 6.00 @ 8.00
Good to fine leaf..... 12.00 @ 15.00
Select wrapper leaf..... 15.00 @ 20.00

The above quotations are not applicable to green and frosted crops.

The meeting at Flemingsburg in which Rev. F. M. Tinder, of Maysville, is engaged, had resulted in twenty-one additions to the Christian Church Tuesday.

STRAYED OR STOLEN.

STRAYED OR STOLEN—A bay mare, five years old, both hind feet white; a natural pacer. Reward paid for her return to me, or for information leading to her recovery. WILLIAM MORAN, Washington, Ky.

BRYAN COMING.

The Presidential Nominee Will Speak Here Friday Evening—Winchester's Speech—The Campaign.

Hon. William Jennings Bryan, the eloquent Democratic nominee for President, will pass through Maysville next Friday evening, reaching here about 4:30 o'clock. He is to speak at Huntington at 1 o'clock and will then come down on a special train, making short speeches at Greenup and Vanceburg. Arrangements have been made to have the train stop at the foot of Market street, where Mr. Bryan will speak. This will be the last opportunity the people of Maysville will have of hearing this eloquent orator during the campaign, and a big crowd will greet him. He will go from here to Cincinnati, making a stop at Augusta, and probably at Dover also.

The "sound-moneyites" had their meeting at the court house last night, with Hon. Boyd Winchester, of Louisville, as speaker. The room was comfortably filled, the major portion of the crowd, we learn, being Republicans. One section of the seats was occupied almost entirely by the colored brethren.

Mr. Winchester is a scholarly gentleman, and an entertaining speaker, and of course the "sound-moneyites" were greatly pleased with his remarks. He seemed to take special delight in denouncing the millions who are supporting the Chicago ticket as "socialists and anarcho-syndicalists."

Attorney General Taylor will address the Republicans of Maysville tomorrow night at the court house.

The Democrats of this county have so far organized eighteen Bryan clubs, the total membership being from 1,500 to 2,000.

The Rising Generation.

The Louisville Times last Monday said of Wm. Barry, the clever comedian, who will be seen to-morrow night at the opera house in his new play "The Rising Generation."

William Barry, the well-known Irish comedian, opened a week's engagement at the Avenue last evening in "The Rising Generation." Both play and star duplicated the hits they made at Macaulay's a year ago. The piece deals with politics and is replete with comic situations. Mr. Barry has a style peculiar to himself, and the character of Senator Meshane offers him many excellent opportunities for clever work, all of which he takes advantage of. But he is not the whole show, for there is Edith Barry, Lydia Barry and J. H. Manning, all of whom handle their parts splendidly. The remainder of the cast is more than satisfactory.

Conversation Overheard on Street Last Night

Colored Man No. 1.—"Hello, Bill, going to court house to-night?"

Colored Man No. 2.—"What for?"

No. 1.—To hear Mr. Winchester."

No. 2.—"Whose Mr. Winchester?"

No. 1.—"He's one of dem gold Demmocrats. He's all right, too. He's one of us; means just same."

And when they arrived at the court house it was a Republican "love feast." The gold Democrats were hardly sufficient in numbers to leave the crowd.

Will Probably Lose All.

The liabilities of the Exchange Bank of Flemingsburg are \$277,055.18, which is \$44,423.82 more than the assets reported by the assignor.

The Gazette says: "No dividend of any sort has been suggested by the assignees yet, and the general supposition now is that by the time the preferred claims and expenses of settling up the affairs are paid there will be nothing left for the depositors and creditors in general."

The Ladies.

The pleasant effect and perfect safety with which ladies may use Syrup of Figs, under all conditions, makes it their favorite remedy. To get the true and genuine article, look for the name of the California Fig Syrup Company, printed near the bottom of the package. For sale by all responsible druggists.

MR. GEORGE BOGGS, well-known in this county, is making speeches in the interest of silver throughout North Carolina.

The Discovery Saved His Life.

Mr. G. Caillouette, druggist, Beaverville, Ill., says: "To Dr. King's New Discovery I owe my life. Was taken with La Grippe and tried all the physicians for miles about, but of no avail and was given up and told I could not live. Having Dr. King's New Discovery in my store I sent for a bottle and began its use and from the first dose began to get better, and after using three bottles was up and about again. It is worth its weight in gold. We won't keep store or house without it." Get a free trial at J. James Wood's drug store.

MRS. CAROLINE KELLER, aged eighty-two years, died Saturday at Paris, of general debility. The funeral took place from the residence of Mr. N. Kriener's last Sunday afternoon. She formerly resided in Maysville and was the mother of Mrs. N. Kriener. A friend pays the following tribute: "Possessed of a lovable disposition, she was greatly beloved by everyone. After a life of usefulness spent quietly and happily among those she loved, her spirit departs without a struggle to enter the presence of the God she loved."

MILLINERY OPENING.

Mrs. L. V. Davis extends a cordial invitation to the ladies of Maysville and vicinity to be present of her winter opening Thursday and Friday of this week.

A heavy electric car loaded with people rushing up an almost straight up and down hill as easily as a bird flies to a mountain top is something that it was worth living to the close of the nineteenth century to see.

Two years ago an old woman near Centerville, Ind., became angered at a man who lived near her and prophesied that he would die violently, and for his sins his bones would be scattered after death. Shortly after the man was drowned, and recently it was discovered that groundhogs had burrowed into the grave where he was buried and stolen his bones.

Mr. Lee B. Gray was not injured as seriously as first reported in that collision with a toll-gate pole near Blue Licks Sunday.

The handle-bars of his bicycle struck the pole first and broke the force of the shock. He was painfully bruised about the chest and head, but his skull was not fractured. He and his wife returned home last evening, and he will soon be all right again.

Mayor Duran of St. Paul has appointed Mrs. S. V. Root as a special officer, possessing full power to make arrests, just like any ordinary bluecoat. Mrs. Root will not patrol a beat, nor will she look after the property of any person, yet she will wear a star. Mrs. Root desired the appointment to aid her work in connection with the Rescue home, an institution for the reformation of fallen women, with which she has long been connected. She thinks that as soon as it is generally known that she has police powers she will be treated with more consideration by the class of people with whom she comes in contact.

VOTE AS YOU PLEASE.

I intend going to Springfield in a couple of weeks and shall 'post' my works there, I intend putting up notices in great big type all over my shops, stating that no man in my employment is expected to vote any way other than as his conscience dictates, or as he thinks right. I want my men to vote just as they please without let or hindrance, and would not keep for day any man who could be influenced to cast a ballot other than as he himself thinks proper.

The above was uttered by Hon. John W. Brookwalter, a big manufacturer of Springfield, O. Mr. Brookwalter is a Democrat and an ardent advocate of Bryan and free coinage. The sentiment he expresses in the above is in striking contrast to the despicable policy now pursued by wealthy corporations to influence and coerce their employees into voting for McKinley.

MARVELOUS RESULTS.

From a letter written by Rev. J. Gunderman, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at Rives Junction she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at J. James Wood's drug store. Regular size 50c and \$1.

PITHY POLITICAL POINTS.

The Demonetization of Silver Conceived in Avarice and Greed and Consummated Through Fraud.

The demonetization of silver was the people's "black Friday."

When silver was dishonored the credit of the government went to protest.

The demonetization of silver was a crime: It was a theft of the people's wealth.

The money of the people was dishonored to enhance the money of the millionaire.

The gold advocates are striving to perpetuate an era of gold, selfishness and avarice.

The demonetization of silver was conceived in avarice and greed and consummated through fraud.

The remonetization of silver is demanded by every consideration of honesty, fair dealing and good government.

The demonetization of silver has worked wonders for the rich, while it has wrought misery for the poor.

The men of Mason County who vote for a continuation of the present hard times are only caypaws for the millionaire monkeys.

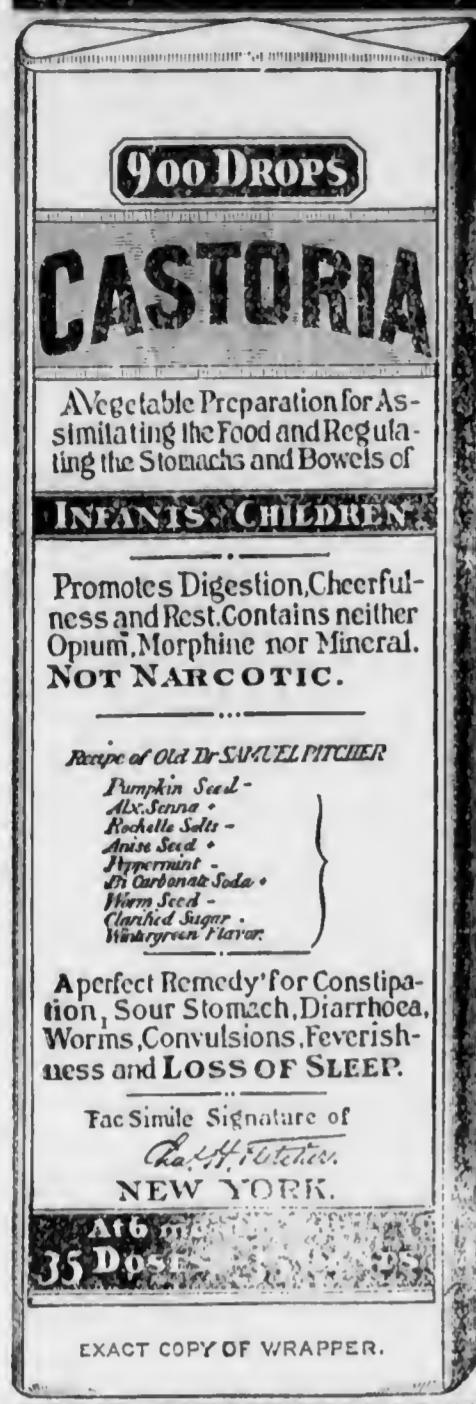

The demonetization of silver meant that dollars were to be taken from the pockets of the diner to add to the purse of the millionaire.

The people of the country were allowed no more voice in the matter of demonetization of silver than a new born child has in naming its name.

The millionaires and gold men are not so modest as Shakespeare's Shylock: he only wanted a pound of flesh, while they demand the very blood of the people.

The silver advocates are "repudiators" in that they will utterly repudiate the whole gang who have brought the country to the verge of ruin at the November election.

The refutation of silver may as confidently be expected to restore business activity and prosperity, consequent upon renewed confidence, as its withdrawal has been established, beyond doubt to have

MEXICAN TOWNS IN RUINS.
Several Have Disappeared as a Result of
the Recent Hurricane.

CITY OF MEXICO, Sept. 30.—Telegrams from Mazatlan state that the town of Altata has completely disappeared as a result of the recent hurricane. Every house was destroyed, burying the inhabitants in their ruins and the only building left standing is a portion of the customhouse. The bark Elena and schooner Rebecca are probably lost.

The town of Elota was wiped out of existence, only one house remaining. Nineteen persons were drowned there. Other towns destroyed are Tecuma, Escaleras, Silado and Ceritas. The inhabitants of all these towns who escaped death are without food, shelter and clothing, and the authorities have taken immediate measures for their relief. It is rumored that yellow fever has appeared at Manzanillo.

Ravages of Hog Cholera.
RUSHVILLE, Ind., Sept. 30.—The ravages of hog cholera are again depleting the already limited supply of swine in Rush county. The worst scourge of hog cholera in the county's history terminated last spring, having raged over six or eight months and killed tens of thousands of hogs, entailing a great loss to the farmers of this county.

BOY MURDERER CONFESES.
How Little Thomas Kidd Was Killed by
Carl McElhinney.

WOOSTER, O., Sept. 30.—Carl McElhinney, the 7-year-old murderer of Thomas Kidd, his little crippled companion, has made a confession to Coroners Stepfeld, Mayor Harold and Marshal Kozier. He was very sullen at first and refused to talk, but finally said:

"I thought I would scare him. I pointed the gun at him and he took hold of the barrels, and I told him to put the gun to his forehead. I then pulled the trigger."

He admitted that they had had a row just previous to the shooting.

Tommy Kidd, the victim, was a helpless invalid, who had to be wheeled about in a chair.

The gun used is the property of a brother, an epileptic, now in the asylum.

At the time of the murder no one was at home save the two boys and the baby.

When five years old Carl set fire to the barn, burning it down. The children, numbering seven, are all bright, except the epileptic.

Physicians here who have carefully examined the young criminal, guilty of arson at 5 and of murder at 7, believe that he is responsible, being fully cognizant of right and wrong.

STORM ALONG THE ATLANTIC COAST

Considerable Damage Done and Many
Places Not Heard From.

NEW YORK, Sept. 30.—The storm which prevailed along the coast and down to the Atlantic stations struck this city at about 8 o'clock last night and steadily increased until midnight, when the wind was blowing at the rate of 25 miles an hour, and that combined with the rain which began to come down in streams as early as 10 o'clock it made it anything but pleasing for people who were forced to be out.

At the weather bureau it was said that the reports were coming in very slowly, as the storm had played havoc with telegraphic communication in all directions. It was stated that the storm along the coast and southern Atlantic states still continued and extended inward to the lake regions.

IMPORTS OF GOLD.

Millions Coming From England and Australia to This Country.

WASHINGTON, Sept. 30.—The director of the mint has received a telegram from the San Francisco mint, stating that about \$4,500,000 in gold was expected to arrive there from Australia a week from next Friday.

Information also comes from London that the Bank of England expects to lose \$5,000,000 to the United States before the end of the week. Both of these shipments are expected ultimately to reach the treasury, which, together with the amounts already in sight, would bring the gold reserve approximately to \$135,000,000.

Cheaper Telephone Service.

MUNCIE, Ind., Sept. 30.—The Kurtz National Telephone company, which was organized under the laws of Illinois and having headquarters in this city, were last night at the regular meeting of the city council granted a franchise, through three of its members, Messrs. William S. Kurtz, James M. Best and Dr. Edward T. Griffith, to construct its model plant of about 750 'phones in this city. This company will begin the work of construction immediately. The prices for service will be one-half that charged by the old company.

Help the Victim and Shot Him.

BLUEFIELD, W. Va., Sept. 30.—At Upland yesterday Gus Miller and his friend, Jim Hawkins, were drinking. Miller was armed with a revolver. He requested Hawkins to arm himself, which he did. When he returned Miller opened fire on him. Hawkins tried to escape. Miller pursued him and caught him. Holding his head under his arm Miller shot him through the brain. Miller was taken to jail at Welch. Much excitement prevails.

Cut Down in Wages.

SOMERSWORTH, N. H., Sept. 30.—The Great Falls Manufacturing company has posted a notice throughout their mills of a reduction in wages of about 8 per cent, to take effect Monday, Oct. 12. The reason for the cut down is given as dullness in the cotton market.

Gladness Comes

With a better understanding of the transient nature of the many physical ills which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of sickness are not due to any actual disease, but simply to a constituted condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co., only, and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, then laxatives or other remedies are not needed.

If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, then one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.
